

DCS-8000LH

Mini HD Wi-Fi Camera

Product Highlights

High Definition Clarity
720p HD quality video

Sound & Motion Detection
Instant alert notifications

Cloud Recording
Automatically save video clips to the cloud for anytime access

Your Home, Only Smarter.

The Mini HD Wi-Fi Camera allows you to monitor what matters most, day or night, whether you are at home or away. Built-in night vision together with motion and sound detection, alerts you instantly when something unexpected happens, giving you extra peace of mind.

Compact Design, Simple Setup

With its compact size, the Mini HD Wi-Fi Camera can be placed discreetly, anywhere within your home. Setting up the camera quick and easy with the free mydlink app. Simply download and install the app on your smartphone or tablet and follow the step-by-step instructions.

Good Things Come in Small Packages

Despite its small size, the Mini HD Wi-Fi Camera is full of useful features for monitoring your home. High definition 720p video streaming allows you to see more details, whilst Wi-Fi connectivity allows the camera to connect to your home's existing Wi-Fi network. The camera can be set up to alert you immediately, on your smartphone or tablet, when unexpected motion and sound is detected. Integrated night vision allows you to see your home, even in complete darkness, so that you know what's happening at home 24/7.

Instant Notification with Cloud Video Recording

Built-in motion and sound detection automatically alerts you and starts recording if movement or sound is detected. Enhanced with mydlink™ cloud recording support, the DCS-8000LH makes it easy and convenient for you to look after your family and check up on your home or office. With a mydlink™ cloud recording subscription, you can have peace of mind with your video recordings saved automatically to your private and personal cloud storage. Playback recordings from the cloud or download video clips to your mobile device from anywhere, anytime through the Internet. Access real-time live views of your cameras using the mydlink™ app and set automated schedules via your mobile device, no matter where you are.

Features

- ◆ View your camera remotely from anywhere in the world²
- ◆ Save snapshots and video clips using the mydlink app³ on your smartphone or tablet, or to your personal cloud storage⁴
- ◆ High quality 720p HD streaming
- ◆ 120-degree wide viewing angle
- ◆ Incredibly small and easy to setup
- ◆ Connects to your home's existing Wi-Fi network
- ◆ Integrated night vision
- ◆ Motion and sound detection with instant push notification alert
- ◆ 4x pinch zoom
- ◆ Works with mydlink Smart Home devices⁵, Amazon Alexa, the Google Assistant⁶ and IFTTT

Do it All with the mydlink™ App

You can set up your camera in no time with the new mydlink™ app for your smartphone or tablet. Once set up, you can view and manage your camera from anywhere with an Internet access. With compatible mydlink™ smart home products, you can set up automation rules through interaction and scheduling. The One-Tap feature allows you to easily turn on/off multiple devices as well as detection alerts with a simple tap. This allows you to create scenes for when you are at home or away.

Smart Home Compatible

See the live view on your camera with the sound of your voice! Experience hands-free control and convenience with compatible through Amazon Alexa and Google Assistant with compatible Amazon Echo and Google Home/Chromecast devices (sold separately) to easily see what's happening at home when your hands are full. Why not make your home smarter by setting up home automation with IFTTT. Turn a light on automatically when motion or sound is detected or send an SMS/e-mail to notify you.
